

Village of Biscayne Park Commission Agenda Report

Village Commission Meeting Date: October 6, 2016

Subject: Discussion of a stone pedestal and
plaque at the Log Cabin

Prepared By: Vice Mayor Roxanna Ross

Sponsored By: Commission

Background

In January 2016 we rededicated our historic log cabin as a community meeting place. We owe a debt of gratitude to many for this milestone accomplishment in the Village. It is traditional and seems appropriate to recognize the partners and contributors to this important accomplishment for the Village. I suggest we leave it to Administration to include appropriate protocols, but offer that the commemorative place be situated on a stand-alone pedestal made of Florida oolitic limestone or coquina to reflect the base facia of the log cabin with a bronze or appropriate durable medal plaque surface.

Fiscal / Budget Impact

To be determined, and may be offset by donations

Recommendation

Erect an appropriate pedestal and plaque.

Attachments

Sample pedestal/ plaque used in City of North Miami.
