WHEREAS, the extent and nature of the state's water and infrastructure problems vary among regions and locales, but include challenges associated with nutrient pollution from septic tanks, wastewater systems and storm water, dwindling water supplies and high costs associated with creating alternative water supplies, and impacts from tidal and storm flooding; and

WHEREAS, the Village of Biscayne Park's most pressing challenges is aging and worn asphalt roads leading to defects indicative of base failure and scalloping issues exacerbated by rising groundwater, stormwater and inadequate drainage, and an aging and fragile water delivery system; and

WHEREAS, Florida’s current problems and future needs are attributable to multiple sources and stakeholders – urban, rural, agricultural, business and industrial – and all of them have a shared responsibility for addressing current problems and future needs; and

WHEREAS, Florida’s local governments lack adequate fiscal resources to address these needs alone; and

WHEREAS, Florida lacks a dedicated, long-term, recurring source of state funding for water supply, water quality and associated infrastructure; and

WHEREAS, Florida’s state and local governments, residents, businesses and industries must collaborate on shared solutions that will meet Florida’s water and infrastructure challenges comprehensively, equitably and for the long-term; and

WHEREAS, the Florida League of Cities has included water resource and water quality funding as one of its 2018 Legislative Priorities.
